

The Akumal Cultural Foundation

Building a future for the children of Akumal: A Unique opportunity to make a difference

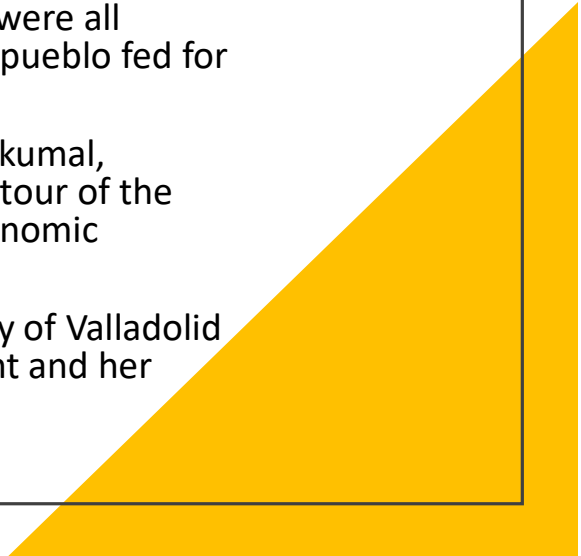

Who We Are:

The Akumal Cultural Foundation is an umbrella entity that serves a goal of providing a better life – and future – for the children of Akumal. Under this umbrella are 3 separate organizations with the Hekab Be Biblioteca US 501c3 serving as a pass-thru organization for all earmarked funding:

- Hekab Be Biblioteca – in operation since 1998, “the library” provides a free after-school and summer school program for local children. Activities incorporate English, Music, Art, Maya Culture & Language, Natural Science, Physical Education, Environmental Education, Organic Gardening, and Homework Help. The goal is to keep the children excited about learning and allow them to experience the richness of opportunity available to them so they will stay in school and open more possibilities for their future.
- Akumal Arts Festival – Co-founded in 2018 by Jennifer Smith and former Akumal Delgado Iran Beltran Chan, the Akumal Arts Festival has become the fastest growing permanent structure street art venue in the world. Once a year, over 100 artists come together in the pueblo of Akumal to paint murals, offer free workshops, performances, and engage with the local community. The Festival has changed not just the face but the personality of the pueblo to give its inhabitants pride, a reason to believe and an opportunity to benefit economically in ways that would not have been possible before. The Akumal Community Center houses all artwork shops open to all ages during the Akumal Arts Festival.
- Akumal Sculpture Water Park – our newest initiative! The land directly behind the police station has been secured, permits secured and ground was broken pre-Covid. When completed, a variety of fun playful water sculptures will provide the only safe area where the children of the pueblo can have fun in the water. Access to the beach closes at 5pm which is typically when the parents arrive home from work. And many of the children cannot swim.

None of these entities receive any type of funding from the local, state or federal governments. They are solely supported by donations and grants.

Achievements to date:

- At Hekab Be Biblioteca, we've conducted extensive renovations to the 35-year-old facility. We have recently built a multi-function concrete court which serves as soccer field, basketball court, volleyball court and pickleball court. We have new playground equipment, trampoline and bicycles. We've hired 2 additional teachers and offer a variety of new classes.
 - We have provided 100,000 free meals during Covid, when the community were all jobless, as 98% of our people work in tourism. We kept the families in the pueblo fed for 39 straight weeks in 2020.
 - In a period of 3 years, we have over 380 murals decorating the pueblo of Akumal, bringing tourists and economic growth to the area. There is now a weekly tour of the murals which gives the history of the installations and further provides economic potential for locally-owned businesses in the pueblo.
 - We sponsored our 1st student with a fully paid scholarship to The University of Valladolid to study graphic design. This paves the way for a real future for this student and her extended family.
- 

Ways you can help:
